Questionnaire	#	Question Text	Answer				
Patient Global Impression of Change	1	Since the start of the study, my overall status is:	This question was not presented to the subject during this visit per the sponsor's protocol				
SF - MPQ	14	Please describe your pain during the last week by touching one button. Throbbing	None				
SF - MPQ	15	Please describe your pain during the last week by touching one button. Shooting	None				
SF - MPQ	16	Please indicate how you have experienced your pain during the past week by touching the line. If you have not experienced any pain, touch the left end of the line. If you have experienced worst possible pain, touch the right end of the line. If the pain you have experienced during the past week has bothered you moderately, indicate this by touching the middle of the line. (0 = No Pain; 10 = Worst possible pain)	11				
Fibromyalgia Impact Questionnaire	7	Please touch the answer that best describes how you did overall for the PAST WEEK. If you don't normally do something that is asked, touch Choose not to Answer. Were you able to walk several blocks?	Most				

- **Clinician Oversight Made Easy:** Principal Investigators and medical staff can review individual patient responses to any questionnaire.
- **Investigator Access Available at Any Time:** Online reports provide Investigator access to all data any time from any location.
- **Promotes Safety:** Allows Investigators & Study Team to monitor critical patient level data (Example: Suicide Question Responses).
- **Highly Secure:** Passwords & Logins provide online security.
- **Easy To Use:** Investigators find eQD easy to work with!

***"Research shows that real-time data might help a sponsor efficiently discover flaws in the trial process to either make corrections or halt an unsuccessful trial."***
